

THE FUTURE OF WATER IN LA

Region
Fairfax District

Project Schedule
February 2022 – March 2023

Melrose Mainline Project

The Melrose Mainline Project will replace approximately one mile of 8-inch ductile iron pipe along Melrose, between Fairfax Ave. and La Brea Ave. to improve water service reliability and enhance fire protection.

This work is being coordinated with a StreetsLA pedestrian improvement and beautification project in an effort to reduce construction time in the area and reduce the inconvenience to the local community.

Construction Information

Crews will install the mainline in four phases, with construction starting on Melrose Ave between Fairfax and Spaulding. Please refer to the map for construction phases and schedule.

Crew will be performing this work overnight from 7 PM - 6 AM. Extended work hours may be required to complete the project in a timely manner.

Traffic and Parking

Throughout construction, at least one eastbound lane and one westbound lane will be open to traffic during construction hours.

Parking will be restricted during construction hours. Businesses in the area will be notified three working days prior to the start of construction.
